

Solid timber flooring range

We stock our own brand of solid timber flooring, known as 'Classicfloor'.

- **Classicfloor** is a range of traditional solid timber flooring. It is carefully seasoned, kiln dried in special kilns to a specific moisture content, then blanked and machined again from single pieces of timber. All this is done in order to provide you with a quality floor that you won't be disappointed in.
- This style of flooring is normally sanded and lacquered on site after being either direct stuck or fastened to a moisture free substrate.
